Salary sacrifice declaration.

Salary sacrifice is an arrangement between an employee and their employer. The arrangement allows the employee to reduce their taxable income via a deduction to their gross salary or wage.

Examples of salary sacrifice deductions may include, but are not limited to, employee superannuation contributions above the Australian Superannuation Guarantee (SG), purchased annual leave, loan repayments, child care payments.

Depending on the circumstance and the information provided by you below, the Bank may consider amounts you salary sacrifice as available income to service your existing commitments and your new loan repayments.

The below declaration relates to salary sacrifice arrangements currently in place between you and your employer.
