

Protect your EFTPOS terminals against COVID-19.

Follow these steps to help reduce the risk of transferring COVID-19 while minimising damage to your EFTPOS terminal.

Step 1

Disinfect by using an alcohol-based wipe or an alcohol-based cleaner on a microfiber cloth.

Step 2

Clean your terminal by gently wiping it with an alcohol-based wipe or a lightly dampened microfiber cloth.

DO NOT pour liquid on the terminal.

DO NOT put hand sanitizer on the terminal.

DO NOT spray the terminal directly.

DO NOT scrub the terminal.

And remember to encourage your customers to use contactless 'tap and go' payments where possible.

We're here for you.

We've introduced a range of support measures to help you during this challenging time. Please visit bankofmelbourne.com.au/businessrelief to learn about COVID-19 support.
